Welcome to ZTE Service. We are here to help you. Question; Product; Please select your product for support. Please select your device for support, such. Buy Original Unlocked ZTE MF823 3G 4G USB LTE Dongle Modem 100Mbps Data Card. Wireless Network Adapter Dual Band 5GHz 2.4GHz for Mac OS 10.6-10.15, Windows XP, 10, 8. I suppose the ZTE MF823 can't support the latest Mac OS. I have a ZTE MF823 and it works well with the Windows 7, but when my friend borrow my ZTE MF823 to work with his Macbook, it's not working. ZTE MF823 is a LTE Cat 100Mbps dongle before ZTE MF831, as the smallest LTE unit since ZTE MF821D, even though its small size, however ZTE MF823 has an amazing performance: LTE FDD 100Mbps support, UMTS backward, and Micro SD card slot up to 32GB. Below is ZTE MF823 main specifications for reference: LTE FDD 800/900/1800/2600MHz with 100Mbps data; 3G UMTS.

ZTE had offered a new LTE surfstick for Germany network providers. The model ZTE MF823 is for 1&1. The brother model ZTE MF823D is also available for the operator O2. Below are the details features for ZTE MF823D.

#### LTE features and Characteristics of **ZTE MF823**

Manufacturer and Model	ZTE MF823D
Download rate up	Up to 100 MBit/s
Upload rate up	Up to 50 MBit/s
Compatible LTE Bands	LTE800, LTE900, LTE1800, LTE 2600MHz
Backward compatible with:	DC-HSPA+, UMTS, EDGE, GPRS
MIMO Support:	MIMO 2x2
Connector for external antenna	Yes; 2 aerial socket type TS-9 available(Buy ZTE MF823D Antenna)

LTE Category: LTE modem category 3 (3GPP Release 8)

Chipset Qualcomm

#### Others

Dimensions 90 mm x 28.4 mm x 13 mm

USB standard USB 2.0

Memory card expansion Yes; MicroSD up to 32 GB

Compatible Operating Systems Windows XP, Windows Vista, Windows 7, Mac OS (from 10.4)

# ZTE MF823

## 4G LTE modem

4G FDD 900/1800/2600MHz  
band 3 7 8 | 3G 850/2100

### Technical Specifications

The ZTE MF823 from Chinese telecommunications equipment vendor ZTE, replaces the current model **MF821D** from O2. All thing should be mentioned that ZTE MF823 is not the best USB stick when the **ZTE MF825** is also in its product range. It supports LTE category 3 (max. 100 Mbit) and therefore with all networks from O2. In any case, the mobile service provider can offer data connections on the basis of category 4, which allows data rates up to 150 Mbps. It supports the LTE frequencies at 800, 900, 1800 and 2600 MHz – for operation in European countries. Likewise, the MF823 could also support DC-HSPA+ (to 42.2 Mbps), UMTS and GSM networks.

Unlike the Speed Stick 4 by Telekom, the stick fortunately has two connectors for an external antenna – optional to improve reception. Like almost all other models, user can insert a MicroSD memory card of up to 32GB of storage space for data of all kinds.

## Others

Users do not have to install an extra software for the MF823, which would be auto connect to network. It is controlled conveniently from the browser via the web interface. It is enough to enter the following IP in the browser: <http://192.168.3.1>. The interface shows all important data at a glance. And you can see, how much volume you have already used in the current billing month. The stick is also compatible with the IPv6 protocol. According to the manufacturer ZTE, the MF823 uses about 1/4 less power than even the previous generations. It's special for operation on a laptop or tablet. We are also pleased that quite modest dimensions of the model. At just 13 mm in height and 26 grams, it is one of the shallower representatives of its kind. It is alleged that the world's smallest LTE data modem. Important to mention would be that there is no SIM lock, so the drive can be used with Contract card of other network operators.

## Conclusion

The ZTE MF823 for O2 can provider users at an acceptable price for mobile Internet. With slim size and decent network support, it could be good partner for laptop. It's available on [www.4gltmall.com](http://www.4gltmall.com) . But if you want to find better models, the Speed Stick III or the Huawei E3276, may be good options, but they are also more expensive.
